

**“How many memorial chairs must we place in our town squares before America wakes up and realizes the Empire has no clothes...”**

Terrorism Expert, Craig O. Thompson -- C-SPAN Broadcast, August 11th, 2001

## **OVER 200 MEDIA INTERVIEWS SINCE ATTACK ON AMERICA**

Spokesperson for the International Association of Counterterrorism & Security Professionals (IACSP), Craig O. Thompson—author of the new suspense/thriller on global terrorism, *OMAR*, and the upcoming non-fiction book, “The Terrorist Cell Game”—first set out to write a novel. He researched and studied terrorism and “NBCRW”— **Nuclear, Biological, Chemical, and Radiological Warfare**—for over eleven years. When he discovered most politicians were avoiding the truth about terrorism and our lack of preparedness...he began talking to America. Why?

**“America lacked, before September 11th--and still lacks today--a clear plan for informing, preparing, and coordinating our citizens for the possibility of additional terrorist attacks on our homeland.”**

On Monday, September 10th, 2001—on a KFI Clear Channel broadcast—Thompson predicted attacks and biowarfare....One caller said, “You’re a wacko. These attacks will never happen.” Thompson offers solutions listeners can use to prepare for any eventuality. **“Preparedness is deterrance to protect our homeland.”** What he says may stun your listeners or viewers.

**ATTENTION PRODUCERS:** Schedule at least 30 minutes to 1 hour, or more, for this very serious subject. Listeners appreciate an honest, straight-forward “common-man” approach to the subject.

Also a member of the Institute for Business and Home Safety, and the Association of Contingency Planners International. **Craig O. Thompson (B.S. and M.A.)** is an educator, consultant, author, and articulate speaker.

### **Thompson will reveal:**

- NBCRW—What are the probabilities—why security and medical institutions are not yet prepared to face them. And what is a C.E.R.T?
- The government has not told the truth about terrorist’s access to bioweapons...which country has the most?
- Why mock disasters failed when we tested America’s ability to respond to biological attacks.
- Why our “Intersection Policy” is a numbers game—like Russian-roulette—and how it could kill thousands.
- Why “first-responders” and medical personnel may not be able to protect your family.
- 10 things families and businesses can do to prepare for natural and man-made disasters (also useful for floods, tornadoes, hurricanes, earthquakes) plus how to advocate safety for your family and community.
